This brand NEW course will help attendees make their Viessmann condensing boiler projects as efficient as possible by looking at the whole picture, and making logical choices. Because it's not just about boiler efficiency!

COURSE FEATURES:

- Course taught by Viessmann trainer Doug Raabe
- Cover the differences between non-condensing and condensing heating systems as well as High Water Mass Condensing vs. Low Water Mass Condensing Boilers
- Discuss options for modifying existing system to get the best possible efficiency when you upgrade to a Vitodens 100, 200 or Vitocrossal 300 series, premium condensing boiler
- Mixing valves, Pumps, Delta T's, Primary secondary piping designs, and venting,
