

CSIpgh Presents:

M&P 2 DAY TRAINING

This 2-day training course will provide in-depth knowledge & skills needed to install and troubleshoot Mitsubishi Electric's M & P Series systems.

You'll receive hands-on instruction from our DSG certified trainers with live, operating equipment.

After taking this course, you will be able to:

- Describe the system components & characteristics
- Understand system installation location requirements
- Interpret the system functions and capabilities
- Determine typical operation, pressure & temperature readings and voltage measurements
- Calculate the appropriate system refrigerant charge
- Troubleshoot the system, identify and isolate system faults

Tues. 11/13 -
Weds. 11/14,
2018

8am - 4pm
