

CSIpgh Presents:

# CITY MULTI 3 DAY TRAINING

## CITYMULTI®

The CITY MULTI Training will provide an in-depth functional study of the system along with a discussion of the theories associated with properly applying, installing, commissioning and troubleshooting systems.

**REQUIREMENTS:** Attendees must bring a laptop computer.

After taking this course, you will be able to:

- Describe the components and characteristics of CITY MULTI.
- Determine correct component addressing for R-2 system.
- Use Diamond System Builder to layout piping and addressing of CITY MULTI components.
- Troubleshoot electrical components of R-2 product line.
- Use Maintenance Tool as a diagnostic troubleshooting aid.
- Determine typical operation, pressure & temperature readings, and voltage measurements during system check.
