

CSIpgh Presents:

# ADVANCED MAINTENANCE TOOL TRAINING

The Advanced Maintenance Tool training is a 1-day course that is recommended for service technicians. The small, intimate class size allows for in-depth conversation and real-life demonstrations using the M-tool.

**REQUIREMENTS:** Laptop computer WITH Maintenance Tool installed (sold onsite). Attendees should take the 3-Day CITY MULTI Training prior to this course.

This course will cover:

- Review the CITY MULTI R2 and Y-Series refrigerant flows
- Discuss the functionality of Y-Series, R2-Series, and Branch Controllers in cooling, heating, and defrost modes
- Define the expected M-Tool target values for R2 and Y-Series systems
- Advanced troubleshooting using Maintenance Tool data
