

CSIpgh Presents:

M&P 4 HOUR TRAINING

CSIpgh has taken the 2-Day M&P Service training and condensed it into this "M&P Info you MUST Know" Class.

This 4-hour training course will provide an overview of the knowledge & skills needed to install and troubleshoot Mitsubishi Electric's M & P series systems.

After taking this course, you will be able to:

- Describe the system components & characteristics
- Understand system installation location requirements
- Interpret the system functions and capabilities
- Determine typical operation, pressure & temperature readings and voltage measurements
- Calculate the appropriate system refrigerant charge
- Troubleshoot the system, identify and isolate system faults

To register, visit csipgh.com/training or email training@csipgh.com
